The Shortcomings Apple Podcast App Apple has notoriously been slow moving about updating the iTunes Apple Podcast app for reasons beyond my comprehension.. Why? Why not, it worked fine I guess I never needed another But, I finally decided to make the switch to Overcast for my podcast habit, and I don't think I'll ever look back.. They seem to have an abundance of resources, yet despite basically owning the podcast market, never decided to add features or update the user experience.. My podcast regime is no different I've always used the Apple Podcast app (nee iTunes).. However, all the new features to the Apple Podcasts app are ones literally nobody was asking for.. Overcast App to the Rescue As part of my role at Discover Pods, I speak to a lot of podcasters and superfans alike.. Let's see what I wrote: "The Listen Now is a much-needed feature and a large upgrade over the existing Unplayed tab.. Another awesome feature of Apple Podcasts is "Stations" which allows you to create your personal stations of favourite podcasts and listen to them using your iPhone or Siri. ae05505a44 [Video Ya SINE MAZETU](#)
